Discover Sweden

Join us for premier racing at Stockholm Cup International Day.

We invite you to experience the excitement of Scandinavian racing at Bro Park, located near the scenic city of Stockholm.

Join us for our best day of racing, featuring four black type races, highlighted by the Group 3 Stockholm Cup International, run over a mile and a half on the turf course.

This event provides an opportunity to compete on an international stage, enjoying generous purses and excellent facilities. It can also be a stepping stone to bigger achievements. For example, the Listed Tattersalls Nickes Minneslöpning, a mile-long race on the dirt course, offers an ideal European trial for North American dirt races.

For our international competitors, travel incentives are available for horses trained outside of Scandinavia. UK-based horses can take advantage of road transport provided by Svensk Galopp, departing from Newmarket on Tuesday, 16th September, and returning on Monday, 22nd September.

For assistance with travel arrangements and entry details, please contact Svensk Galopp or IRB.

We look forward to welcoming you to Sweden!

Bro Park - the home of horse racing in Stockholm

Bro Park opened in 2016, replacing Täby Galopp as the home of racing in the Swedish capital. Race meetings are regularly staged on both turf and dirt at the new facility that is owned by Svensk Galopp (the Swedish Horseracing Authority). It stages some of the most important races in Scandinavia, including the Swedish 2000 and 1000 Guineas and the Group 3 Stockholms Stora Pris in June, and the Group 3 Stockholm Cup International in September.

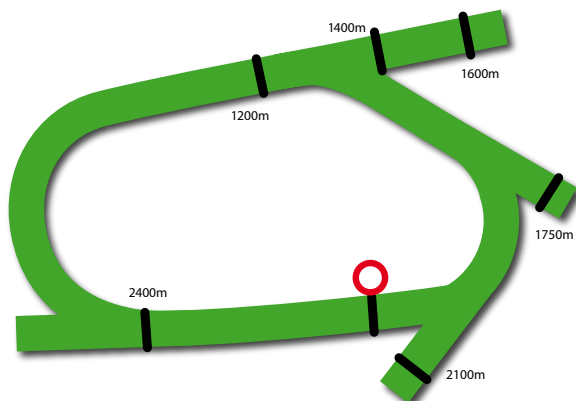

The racecourse is located in the town of Bro, approximately 35 minutes from the centre of Stockholm by car and a similar distance from Arlanda Airport.

Bro Park has an impressive 2100m turf course, a 1900m dirt track on the inside, and separate courses for steeplechase and hurdling. The racecourse and training centre cover an area of approximately 500 acres and has permanent stabling and training facilities for 300 horses with the capacity to accommodate a further 100 on race days.

The turf track

The turf track is a left-handed, galloping track with long and sweeping bends. The circumference is 2100m (10.5f). The track has hardly any undulations.

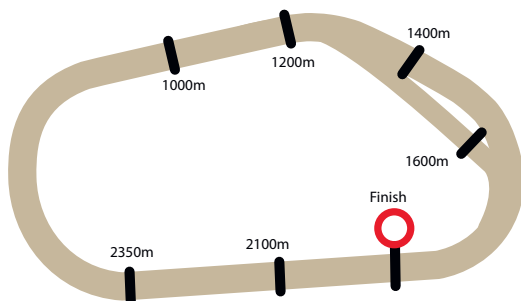

Races run at 1600m (8f), 1750m (8f 154yds) and 2100m (10.5f) are started on their own separate chutes. The straight is slightly over 400m (2f) long.

The dirt track

The dirt track at Bro Park is a left-handed track inside of the turf track.

The straight is 400m (2f) and the circumference is 1900m (9.5f). The 1600m (8f) races are started from a chute from the inside of the track.

Supplementary nominations

Supplementary nominations for The Stockholm Cup International will be accepted not later than 7th September with the payment of 37,000 SEK and a declaration no later than 9.30 a.m. (local time) on 15th September with the payment of 13,000 SEK.

Elimination

There will be no declaration fee if the horse is eliminated due to the maximum runners. The Stockholm Cup International has a maximum of 15 runners. The runners will be reduced by the elimination of those which, in the opinion of the Scandinavian Handicapper, have the lowest handicap rating.

Swedish V.A.T. charge

A 6% Swedish V.A.T. charge will be added to all entries and declaration fees.

Travel allowances

For each horse trained outside Scandinavia participating in Listed and Group races, travel allowances and contribution towards boarding will be subject to agreements. Contact the Swedish Horseracing Authority or the International Racing Bureau for more information.
