# Are you ready to do something different this year?

Sweden is a racing nation on the up. We have plenty of black type opportunities and larger purses than most people realise. We are not even that far away. Give it a go – before everyone else does.

The Stockholm Cup International Day at Bro Park in Stockholm on Sunday 17th September features four black type races. The main race of the day is the Group 3 Stockholm Cup, a 12f turf race which boasts a purse of approximately €121,000. The Tattersalls Nickses Minneslöpning, a Listed race over a mile on the dirt course, is the perfect European trial for the Breeders' Cup Dirt Mile or other North American dirt races.

How to get a horse to Sweden? Don't worry – it is easy. We take away all the administrative efforts of travelling horses to Sweden. Any horse wishing to compete on the Stockholm Cup International Day will be able to use road transport provided by Svensk Galopp. The transport leaves from Newmarket on Wednesday 13th September and returns on Monday 18th September.

Are you ready to do something different this year?  
Welcome to Sweden!

# Bro Park - the new home of horse racing in Stockholm

Bro Park opened in 2016, replacing Täby Galopp as the home of racing in the Swedish capital. Race meetings are regularly staged on both turf and dirt at the new facility that is owned by Svensk Galopp (the Swedish Horseracing Authority). It stages some of the most important races in Scandinavia, including the Swedish 2000 and 1000 Guineas and the Group 3 Stockholms Stora Pris in June, and the Group 3 Stockholm Cup International in September.

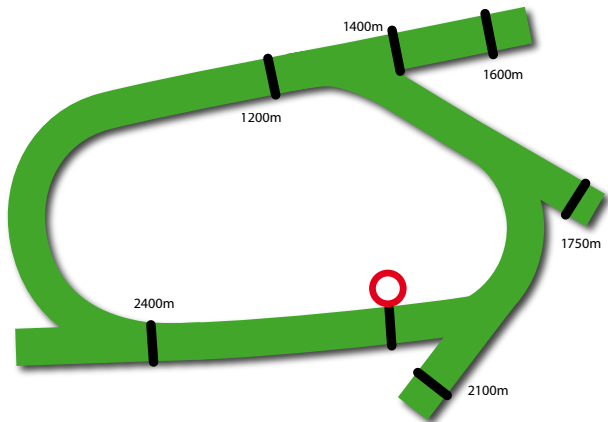

The racecourse is located in the town of Bro, approximately 35 minutes from the centre of Stockholm by car and a similar distance from Arlanda Airport.

Bro Park has an impressive 2100m turf course, a 1900m dirt track on the inside, and separate courses for steeplechase and hurdling. The racecourse and training centre cover an area of approximately 500 acres and has permanent stabling and training facilities for 300 horses with the capacity to accommodate a further 100 on race days.

## The turf track

The turf track is a left-handed, galloping track with long and sweeping bends. The circumference is 2100m (10.5f). The track has hardly any undulations.

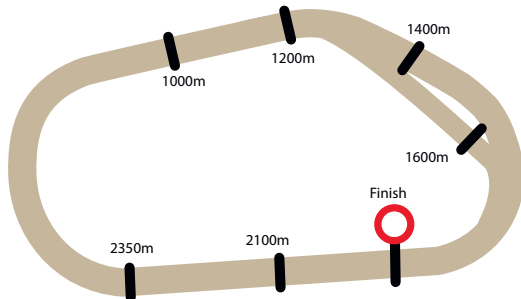

Races run at 1600m (8f), 1750 m (8f 154yds) and 2100m (10.5f) are started on their own separate chutes. The straight is slightly over 400m (2f) long.

## The dirt track

The dirt track at Bro Park is a left-handed track inside of the turf track.

The straight is 400m (2f) and the circumference is 1900m (9.5f). The 1600m (8f) races are started from a chute from the inside of the track.
